Key Insights

- Break-even occurs in Month 1, thanks to low overhead and high content volume.
- By Month 6, the system is projected to generate over \$35,000 in monthly net profit.
- Streams will mature, audience size will compound, and email list monetization will scale over time.

AI Passive Income Empire - Financial Projection Report

- Growth is organic but can be accelerated using paid ads and retargeting.
- YouTube monetization, AdSense, and affiliate earnings will be the primary revenue streams.
- ROI by Month 12 is projected at ~20x over operating costs.
